Amendments to the Claims

The listing of claims will replace all prior versions and listings of claims in the application:

5 Listing of Claims

Claim 1(currently amended): An optical system for projection display comprising:

- a light source for producing a light beam;
- an imaging system having a light valve and a projection lens; and
- 10 a total reflection lens having a transparent surface and a total reflection surface, the transparent surface facing the light source;
wherein the transparent surface receives and conveges the light beam from the light source and then the light beam is impinged onto the total reflection surface, the total reflection lens receives the light beam from the light source and, by using
- 15 wherein the total reflection surface reflects the light beam ~~onto~~ to the light valve the transparent surface and then the transparent surface converges the light onto the light valve which reflects the light beam into the projection lens.

Claim 2(canceled)

20

Claim 3 (original): The optical system of claim 1, wherein the total reflection surface is a total reflecting coating

Claim 4(original): The optical system of claim 1, wherein the

25

total reflection surface is a mirror

Claim 5(original): The optical system of claim 1, wherein an integrator is placed between the total reflection lens and the light source

30

Claim 6 (original): The optical system of claim 1, wherein the total reflection lens is a concave mirror.
